

Protecting Our Kids

Children with access to the internet today must develop ways to safely navigate the many hazards for kids online.

The risks kids encounter online today far outreach the risk of the internet from our childhood. They need the skills to stay safe.

What threats are our kids facing?

- Cyber Bullying
- Human Trafficking
- Adolescent Suicide

Our Strategies:

MySecureKid is on a global mission to ensure children's cyber safety and future career success.

The internet is an increasingly vital part of our global culture. We can't shelter kids from the internet, but we can teach them how to protect themselves. We can also create a diverse, inclusive, and safe online community for them.

How do we do this?

Educating parents, teachers and children on cybersecurity best practices.

Creating a pipeline of diverse talent for careers in science, technology, engineering, math, cybersecurity (STEAM-C), healthcare and IT, and mentoring youth who want to explore these careers.

Providing scholarships for education in STEAM-C related fields while forging partnerships with businesses and nonprofits who have a stake in the future of STEAM-C.

Offering youth internships for on-the-job learning.

Establishing apprenticeships for hands-on experience.

We enlist the aid of impassioned adults—veterans, retired professionals, returning citizens, women, and minorities—to ensure every child has the right tools for career success and digital

About Quiana Gainey

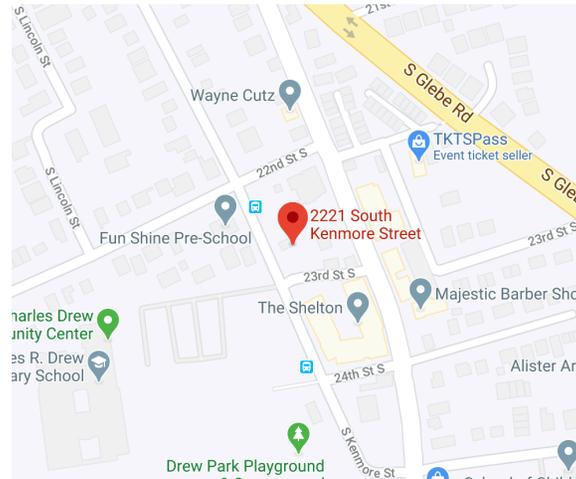

Founder Since 2005, Quiana has worked in IT and cybersecurity, founding MySecureKid.org and SecureTech360, where she serves as CEO. Quiana has an MBA in IT management and cybersecurity. As a social entrepreneur and humanitarian, she strives to ensure that underrepresented communities share in the rewards new technology

brings.

About SecureTech60:

Since 2010, SecureTech360's award-winning, multi-certified team has built secure and seamless bridges from traditional networks to next-generation IP technology, keeping businesses on the leading edge of advances in cyber capabilities.

Empower Our Future

We Need Your Support to Make It Happen

Our initiative to protect, educate, and lift up children who come from all backgrounds and walks of life is largely funded through donations from caring donors like you.

We need your generous support to keep the initiative going. You can make a one-time gift or become a monthly donor to support our ongoing efforts to raise a diverse generation of kids who use technology to make the world a brighter, safer place.

Ready to be a difference-maker? Visit mysecurekid.org/donate/ to make your contribution today!

Foster a Secure Online Environment for Children

Children today have more threats to their well-being and safety than ever before. They need tools and strategies to stay safe from these dangers. Having access to the internet exposes children to global dangers from often-anonymous sources, as well as threats that originate a little closer to home:

- 80% of kids between the ages of 10 and 15 have witnessed cyberbullying firsthand
- Traffickers target children as young as 9 via online platforms
- Cyberbullying raises the risk of self-harm and suicidal behavior 2.3 times

Representation & Equity Matter

To maintain our initiative's momentum, we're also bringing our services into underserved communities. We're building a diverse pipeline of talented young people from these communities who wish to train for future careers in information technology and cybersecurity.

There's a critical shortage of professionals in these fields, which will only become more acute as global interconnectivity grows.

It's the prime time for veterans, retirees, women, minorities and anyone willing to get involved and make a difference. MySecureKid is helping to making that happen from an early age.

Become a Mentor

Assist our interns, apprentices, and students in developing soft skills and gaining hands-on experience. Help us coordinate and host networking luncheons, career days and on-site corporate visits to introduce youth to exciting and rewarding careers in STEAM-C.

Help Spread the Word

If you have a social media presence, we invite you to enhance our global outreach efforts.

Please express your support and share a link to MySecureKid.org.

Connect with us on Twitter and LinkedIn to keep up with how we're making a difference.

Become Our Partner

As MSK's partner, your organization or nonprofit can help us build bridges to underserved communities and create career opportunities for the next generation. We can tailor job fairs and workshops to attract candidates that fit your company's workforce needs. Our apprentice and workforce development programs have helped companies of all sizes attract, train and retain eager, talented, productive employees who are passionate about information technology, cybersecurity, and the expanding STEAM-C industry.
